Eoin Gaughan

CHARTERED ACCOUNTANT - ABBVIE

In 2014, I began my journey with Gilroy Gannon as a Trainee Accountant. My tenure with the firm enriched me with top-notch training and invaluable experience, catering to a diverse clientele from various industries based in the northwest of Ireland. This foundation paved my way to joining Abbot Laboratories as a Finance Analyst, eventually leading me to my current role in AbbVie as Operations Accountant.

AbbVie is a global biopharmaceutical company that originated as a spin-off from Abbott Laboratories in 2013. Abbvie's mission is to develop and market advanced therapies that address some of the world's most complex and critical health challenges today.

Lorraine Beckett

CHARTERED ACCOUNTANT - ATU SLIGO

I earned my Honours degree in Business from IT Sligo and began my journey at Gilroy Gannon during the summer of 2017. Despite not receiving any exemptions from Chartered Accountants Ireland, I embarked on my path by starting with the CAP 1 exams. Coming from a non-accounting background, my time at Gilroy Gannon was instrumental in providing me with top-notch training, enabling me to complete my CAP 1s, Cap 2s, and FAEs within a three-and-a-half-year contract.

Gilroy Gannon played a pivotal role in expanding my skill set, and I'm immensely thankful for the wealth of knowledge and opportunities I gained during my tenure there. Subsequently, I have advanced in my career and found a role in a field that I am truly passionate about. For anyone contemplating a similar path, I wholeheartedly endorse the idea of joining their team.
